## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 3 is rejected under 35 U.S.C. 102(b) as being anticipated by Sehr (US 6,085,976).

Sehr teaches that a passenger smart card can be used as an electronic ticket, a payment carrier, and a host for various application by exchanging the information securely wherein a public key (e.g., mailing address) and a private key (e.g., biometric characteristics of an individual) are used to encrypt the information (see col. 30, line 60-col. 31, line 18).

### ***Allowable Subject Matter***

Claims 1, 2, 4-16 are allowed.

The following is an examiner's statement of reasons for allowance:

Although, the best prior art of record to Sehr discloses a method of encrypting information using biometric information, Sehr taken alone or in combination with orhter references, fails to particualry teach or fairly suggest that the method of authenticating a shipping transaction comprises acuring biometric information and shipping information

Art Unit: 2876

relating to a customer, encrypting the shipping information using the biometric information and storing the encrypted result on the smart card and a shipping database, providing the smart card to the customer for allowing the customer to access the database for changing shipping information, and requesting the customer to supply the biometric information to authorize the transaction as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Gobburu et al. (US 6,736,322) discloses a method for acquiring, maintaining, and using information with a mobile communication device,

Larson et al. (US 6,779,721) discloses a method for managing security at a plurality of physical locations.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Seung H. Lee whose telephone number is (571) 272-2401. The examiner can normally be reached on Monday-Friday, 7:30 AM- 4:00 PM.
